Ascom Myco 3 smartphone. For streamlined workflows and informed decisions

The enterprise-grade Ascom Myco 3 smartphone delivers up-to-date, context-rich information to mobile staff in healthcare, manufacturing and other demanding environments.

Seamless collaboration

The Ascom Myco 3 combines secure connectivity to LTE and Wi-Fi networks with seamless roaming to provide smooth collaboration across even the largest, most complex facilities. And its Android™ 9 OS and Google™ certification ensures access to the world's largest ecosystem of apps.

From fragmented data to fluent workflows

The Ascom Myco 3 together with supported apps unlock and connect siloed information; helping your organization to:

- Share information across dispersed teams to help coordinate time-sensitive activities.
- Turn multi-step and multi-location activities into coordinated workflows and communication

Optimized interaction with information

The Ascom Myco 3 features a full high-definition 5" display for optimal interfacing and management of alerts, messages and visual data. Sound quality is exceptional, thanks to wide-band audio and noise and echo cancellation—critical for workplaces with high ambient noise levels.

Continuous power for continuous performance

The Ascom Myco 3 features a powerful octa-core processor to support smooth multitasking. While its true hot-swap-pable Li-ion battery helps maximize uptime and productivity—no need to power down or exit apps when changing batteries.

Keep staff safe

An alarm button is located on the top of the handset for quick, easy access. Features man down and no movement alarms with location for fast and accurate assistance.

Barcode scanning: secure verification of patient IDs when administering medications.
