# Creative Add-ons for Ivanti Solutions

## Localization Package (Arabic)

## What is the Arabic Localization Package?

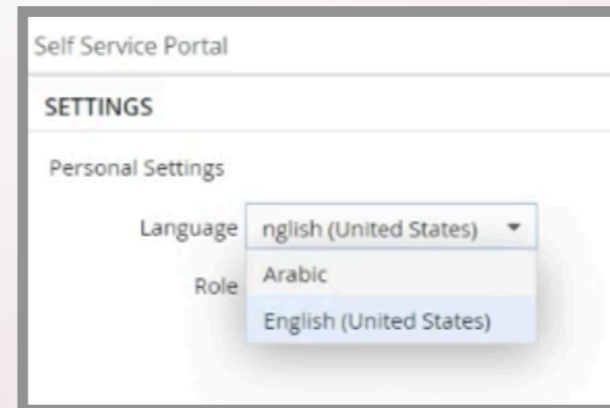

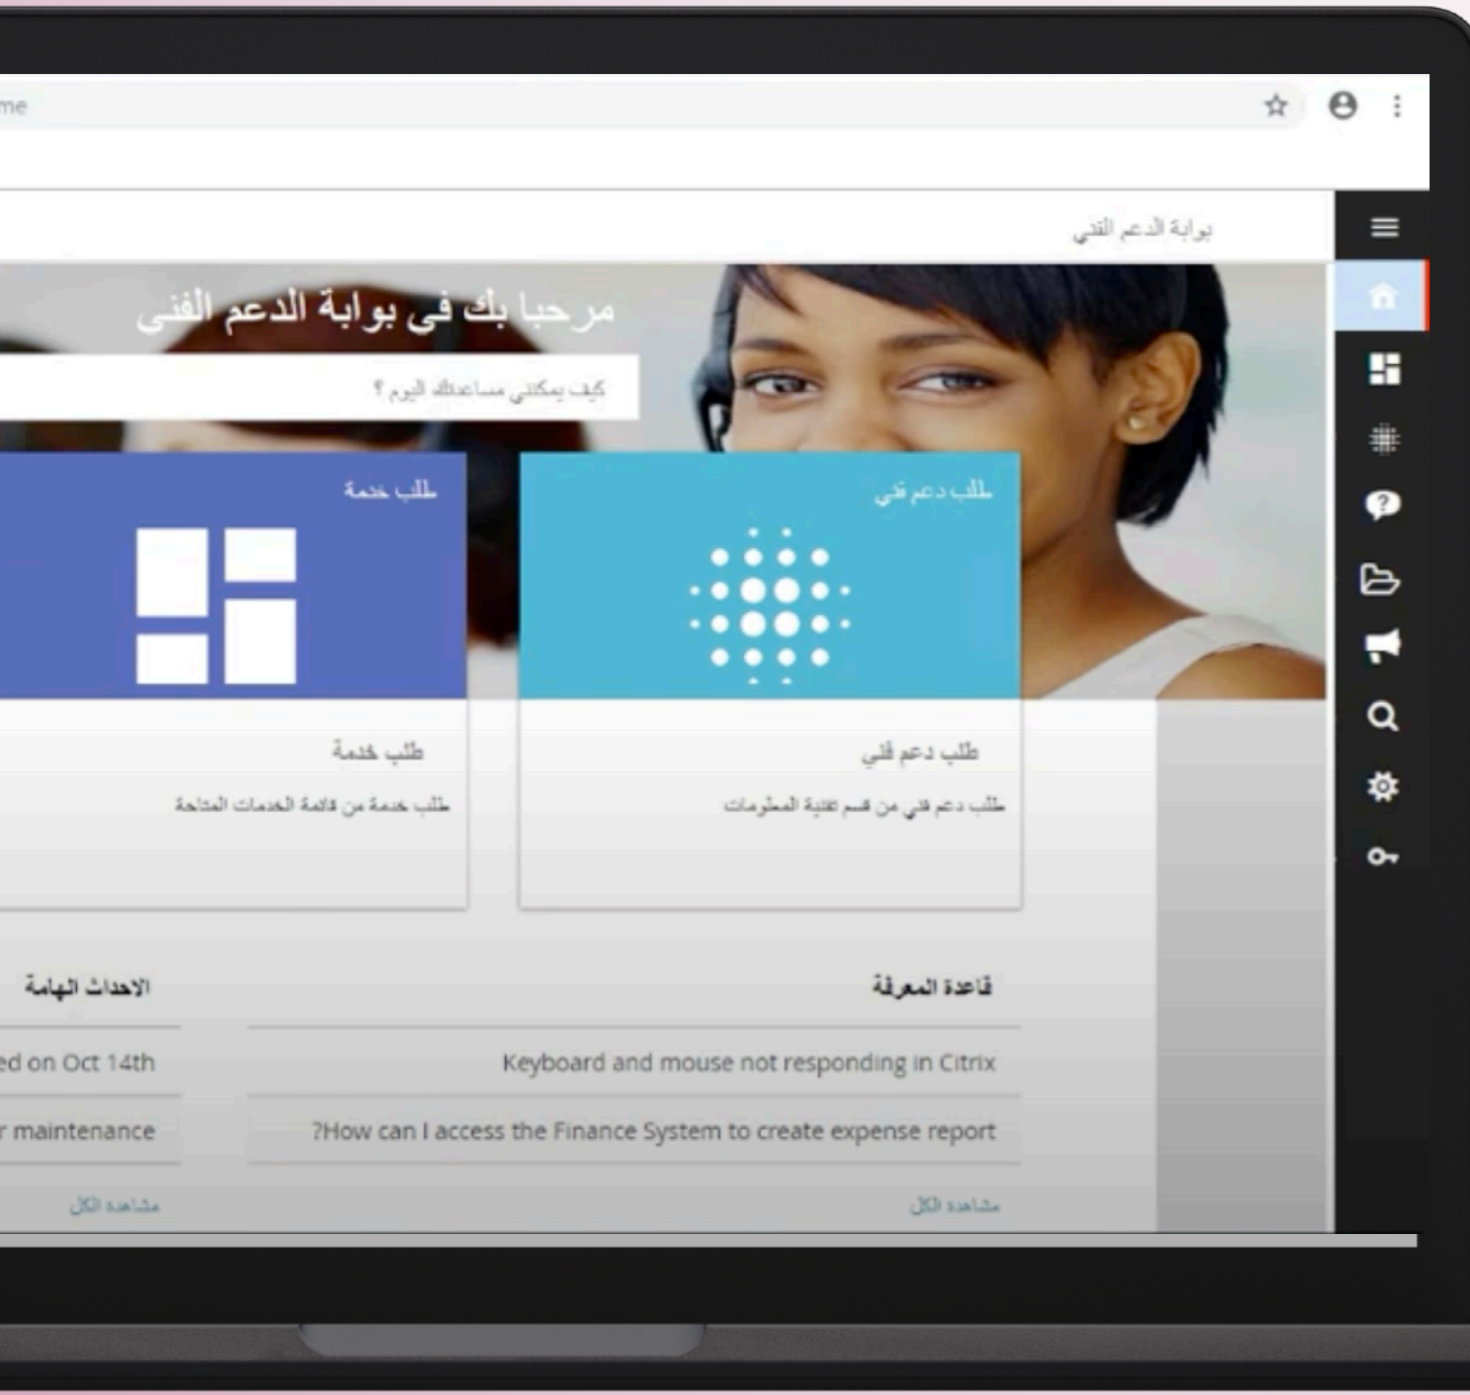

It is a custom package designed for Middle East Ivanti customers to arabize the endusers interface in Ivanti Service Management (ISM) & Ivanti Asset Manager (IAM)

## Benefits

- ▶ Support Ivanti customers to use ISM as Centralized Digital Transformation Platform by allowing Arabic users to use it with their own language
- ▶ Support Government entities to apply internal policies in systems design

## Features

- ▶ Proper Right-to-Left orientation
- ▶ Switch button to switch between Arabic and English
- ▶ All system messages translated by ITIL engineers
- ▶ Support mobile interface
- ▶ Rollback Configuration

Thanks
