Exchange connector for
whoosh ivanti connect

bridge the gap between Ivanti Service Manager and Microsoft Exchange

You work with Ivanti Service Manager (ISM), but your customers / clients / employees / colleagues work with Microsoft Exchange only? If so, you certainly have to exchange data between the two programs on a regular basis. For example if it is necessary to appoint a meeting in order to complete a task. So far, this meeting has to be created manually in Outlook, because there is no direct interaction between Exchange and ISM. Our Exchange connector for whoosh ivanti connect bridges this time-consuming gap. Our connector allows for a fully automated workflow. Tasks, changes, milestones, etc. can finally be represented in the Exchange-calendar, directly and hassle-free.

Exchange connector

ISM ↔ ISM Server

maintenance, bugfixes and updates per connector

599 €
yearly

whoosh ivanti connect is our basic technology that allows for an easy connection between ISM and 3rd party software. Additionally, it enables you to hook up your different ISM tenants. You decide what 3rd party software you want to connect ISM to by choosing one of our connectors -e.g. the Exchange connector.

what else we can do for you

You have an annoying problem in your work routine? It bugs you and makes your day worse? We are happy to get rid of this problem for you. Our software solutions are reliable, easy to handle, for a fair price. What's more, we offer full service: Maintenance, support and bugfixing are all part of the deal. You get more than a one-off solution from us, so you can completely focus on the important issues. Just get in touch with us and tell us about your annoyance.

We do what we say we do.
