

file connector for

## whoosh ivanti connect

Convert data from Ivanti Service Manager into a format of your choice

Do you want to export data from Ivanti Service Manager (ISM)? But ISM doesn't offer your desired target format? Or are the target formats offered by ISM too noisy to be of any use for you, because they include too many metadata and redundancies? No problem! Our file connector for **whoosh ivanti connect** enables you to conveniently export data from ISM to the format of your choice. The result is clearly structured, utterly functional and very easy to utilize.

The file connector comes already preconfigured with the formats CSV, XML and JSON. Do you need another format? That's no problem either! Simply get in touch with us and tell us what you need. ([ivanticconnect@freedom-manufaktur.com](mailto:ivanticconnect@freedom-manufaktur.com))

### Exchange connector

ISM ↔ file  
(CSV, XML, JSON)

requires  
**whoosh ivanti connect**

connects ISM to  
Exchange 2016

**2.999 €**  
onetime

### manufaktur

support for your  
connector

maintenance, bugfixes  
and updates per  
connector

**599 €**  
yearly

**whoosh ivanti connect** is our basic technology that allows for an easy connection between ISM and 3<sup>rd</sup> party software. Additionally, it enables you to hook up your different ISM tenants. You decide what 3<sup>rd</sup> party software you want to connect ISM to by choosing one of our connectors -e.g. the file connector.

## what else we can do for you

You have an annoying problem in your work routine? It bugs you and makes your day worse? We are happy to get rid of this problem for you. Our software solutions are reliable, easy to handle, for a fair price. What's more, we offer full service: Maintenance, support and bugfixing are all part of the deal. You get more than a one-off solution from us, so you can completely focus on the important issues. Just get in touch with us and tell us about your annoyance.

We do what we say we do.
